Less than me

Less than 2

Don't ask yourself what I'm gonna do

Less than 3

Don't ask yourself where I'm gonna be

When I'll get free

When I'll be me

When I'll get free to be me

Don't ask yourself

It's a part of me

Don't ask yourself

Don't ask yourself

It's a part of me

Don't ask yourself

what I'm gonna do

where I'm gonna be

Don't ask yourself

It's a part of me

I don't ask less than 2 with you

I don't ask less than 3 with me

You're a part of me

A big part of me

A big big part of me

Less than 2 less than you
Less than 3 less than me

Less than you
I couldn't be less than you
Even if I want it to

Less than me
I shouldn't be less than me
Even if I want it too

Less than 2 less than you
Less than 3 less than me

Less than you
I couldn't be less than you
Even if I want it to

Less than me
I shouldn't be less than me
Even if I want it too
Even if I want it too
Even if I want it too

Tears in a crowd

You're right ' n ' wrong

Book ' n ' Words to feed my head
You think I read to make you dead

World ' n ' Vision to feed my eyes
You think I'm there to shine my light

You're right ' n ' wrong

All what you, you'll have to do
To feel yourself as someone new

All what you, you'll have to do
To feel yourself as the one you need

I'll do
Anything to shine
To shine my light
You're right so right
I I will try
Anything to shine
My life I'm right
My life you're right

So let me in
Light up my life

Be sure I'll be
There to shine my light (3 x)

You're right ' n ' wrong

Books ' n ' World is like a tear
A tear in the crowd

Words ' n ' Vision is like tears
Tears in a crowd

You're right ' n ' wrong
You're right ' n ' wrong

I'll do
Anything to shine
To shine my light
You're right so right
I I will try
Anything to shine
My life I'm right
My life you're right

So let me in
Light up my life

Be sure I'll be
There to shine my light (4 x)

You're right ' n ' wrong

Books ' n ' World is like a tear
A tear in the crowd

Words ' n ' Vision is like tears
Tears in a crowd

You're right ' n ' wrong
And wrong So wrong

Feeling mine to be

I'm feeling fine
I'm feeling good
I'm feeling mine
Like I should

I wanna be your tenderness
Becoming your sweet caress
Seeing your lips burning mine
Falling in love all the time

I'm feeling fine
I'm feeling good
I'm feeling in time
As I would

I wanna be your romance
Becoming your presence
Hear your breath living mine
Falling in love all the time

I miss you
Your picture by my hands
Is a sweet souvenir
For the night I have to live far away from you

I love you
What more to say
I love you
What more to live
I love you

I don't wanna live nothing else
I can not live with someone else
Feeling love between you and I

I love you
What more to say
I love you
What more to live

I'm feeling fine
Feeling good
A matter of time
Feeling good
A matter of mind

Some I don't
Some I do

Right now

The first you've got

The first you've got
Don't let her go away

The first you've got
Don't let her go away

If you do
You will regret in a day

If you don't
You will regret anyway

The first you've got
Don't let her go away

The first you've got
Don't let her go away

If you do
You will regret in a day

If you don't
You will regret anyway

The first you've got
Don't let her go away

The first you've got
Don't let her go away

If you do
You will regret in a day

If you don't
You will regret anyway

Wake up
Hurry up
The first you've got

Wake up
Hurry up
The first you've got

The first you've got
Don't let her go away

The first you've got
Don't let her go away

If you do
You will regret in a day

If you don't
You will regret anyway

Wake up
Hurry up
The first you've got

The one you've got (You've got)
You've got to love her (To love her)

The one you've got (You've got)
You've got to love her to day (Today)

May the one you've got (You've got)
Be the one you love (You love)
May the one you love (You love)
Be the one you've got (You love)

Now

Pourring love

Anybody down
Here comes the clown

Anybody around
Here comes the cloud

Listen to what the clown' ll say
Hearing too what the clown' ll do

May be it'll pour love on this little clown

Anybody down
Here comes the clown

Anybody around
Here comes the cloud

Think about what the clown' ll say
Watch out what the clown' ll do

May be it'll pour love on this little cloud

You and me
From time to time
You and me
We are the clown
You and me

You and me
From time to time
You and me
We are the cloud

Pourring love

Pourring love
All around

Pourring love
All over

Planting seed
All over

You and me

All over

So wise so late

So old so fast
So wise so late

Out of nowhere
Nobody care

Out of nowhere
As no one else

Out of nowhere
Nobody dare

Out of myself
As no one else

So old so fast
So wise so late

There are many things I can't take
I spend my life at asking why
Looking for truth in hands I shake
Looking for you in name I date

So old so fast
So wise so late

Let me get out of nowhere
AS nobody care

Help me get out of myself
As no one else

So old so fast
So wise so late

Out of nowhere
Nobody care

Out of nowhere
As no one else

Out of nowhere
Nobody dare

Out of myself
As no one else

So old so fast
So wise so late

So your day

How was your day
Nothing new
All the same
You say

Have you walked
Lately

Not much

You know you have to walk
Or you'll stay
In bed all day
All day long (6 x)

A new after

Before we knew
Never be the same
It will change its name

Before we knew

Before we knew
Never be the same
It will change its face

Before we knew

I speak with my eyes
I listen to with my heart
I understand with time

So Give me time
I need time to get better

So Give me time
I need time to get higher forever

Before we knew

Before we knew
Never be the the same
It will change that's all

Before we knew

It's all done
Love and be loved
For me and for us

Before we knew

Before we knew
A new after
It won't change its name

Before we knew

Before we knew
A new after
It won't change its name

Before we knew

Before we knew
A new after
It won't change its name

Before we knew

Miss Classy Woman

Miss Classy Woman
From head to toe

Miss Classy Woman
From high'n ' low

You may tell
Whatever you want
You may tell
Anything you need
You may tell
What you think about
You may tell
To scream and shout

Miss Classy Woman
From head to toe

Miss Classy Woman
From high'n ' low

With
high heels shoes
And high heels boots
Dark red lips
Long blacky hair

Miss Classy Woman
From head to toe

Miss Classy Woman
From high'n ' low

I'm all ears
From all these years
Without fears

I'm your biggest fans you know

Miss Classy Woman to the bones
Miss Classy woman from head to toe

Walking with
High heels shoes
And high boots
Dark red lips
Long blacky hair

Miss Classy Woman
From head to toe

Miss Classy Woman
From high'n ' low

Too much pain for a brokenhearted

Too much pain
Too much sadness

May cause you a brokenhearted

Too much pain
Too much sadness

May cause you a brokenhearted

They don't understand
They don't believe

They can't understand
They can't believe

Too much pain
Too much sadness

May cause you a brokenhearted

Life is made in that way
Someone said to me one day

Too much pain
Too much sadness

May cause you a brokenhearted

Life is made in that way

Someone said to me one day

Too much pain
Too much sadness

Too much pain
Too much sadness

May cause you a brokenhearted

A brokenhearted
A brokenhearted
A brokenhearted
A brokenhearted
